

WHY WE LOVE

Sno:la

Yogurt's Got a Whole New Bag

one.

Highly Addictive

The habit-forming delights are made with organic, non-fat dairy and naturally sweetened with fruit juice and fruit purees, making indulgence entirely guilt-free.

two.

Seasonal Flavors

In summer, the delectable array includes Sour Cherry, Dulce de Leche and Mango. And for winter, there's been whispers of cozy Fig-Date and Pumpkin flavors.

three.

Topping Selection

Choose from 40 toppings, including organic chocolate, organic gummi bears, fresh fruit, aloe, mochi and nata de coco.

four.

Biodegradable Packaging

Sno:la supports sustainability, so the containers are biodegradable and the spoons are made from potatoes and wood.

five.

Green Décor

Countertops are composed of recycled computer chips, wall panels are fashioned from reclaimed wood and the concrete floors are stained with soy.
